Description

Nancay came from Argentina to Germany in 2024 and played in the 2025 European Polo Championship in Poland. She is a fast, experienced mare with an expansive stride and plenty of potential on the polo field. On the ground, she has excellent manners, although she tends to be dominant within the herd. As a leisure horse, she is straightforward and pleasant to ride, even for beginners. In polo, Nancay really shows her skills with a good rider. As a leisure horse, she has already participated in hunts and is completely reliable out on the trails. Nancay is currently in polo training and available to try at any time. We play her with a 53-inch stick. She has an old scar on her hind leg, which she already had when she arrived with us and which has never caused any problems. We have two videos which we can send upon request.
